3. Why one should pull credit report?

"*Control Risk - Know the Financial Condition of Your Prospects, Customers, Suppliers & Competitors*"

- Today, more than ever, it's important for businesses to understand the creditworthiness of their customers and the financial health of other companies critical to their success, including suppliers and competitors. The costs of making a mistake are too great not to know.

  Realsearch.com's Premium background with credit report helps companies determine which potential customers or business sectors are good risks – and which aren't – and gives them the detailed, ongoing data necessary to take action.

- Score rates the financial health of a business
- Business Health Index
- Likelihood of consistent payment
- Estimated days beyond payment terms
- Suggested credit limit/action
- Business trend information

- **Monitor** *your customers' ability to pay on time*
- **Determine** *your borrower's capacity to pay back their loans*
- **Assess** *your suppliers and vendors capacity to deliver*
- **Know** *the financial* strength of your prospects and competition

4. Any special offer or teaser message – special FEIN
customer pricing etc..

Will submit this …. Next.
